INDEX TO VOLUME LXI, 1957

POWER ENGINEERING

A star * denotes an illustrated article; H denotes an article which appeared in the Power Engineering Handbook. A Subject Index follows the Article Index, and, as a cross-reference, an Index to the Authors appears last

ARTICLE INDEX

A

A-C Welding Equipment? — Understand . . . May *85
Additives — Lubricant — With a Purpose . . . Apr H *112
Adjustable Length Reel Saves Time in Winding Small Gage Wire . . . Aug H *112
Air Compressors? — Think You Need More . . . Aug *82
Air-Cooled Aluminum Bus for Haas Underground Plant . . . Apr *103
Air Cuts Lubrication Costs on Coal Conveyors — Compressed . . . July *55
Air Leakage — New Way to Measure Condenser . . . July H *88
Air Preheaters — In-Service Washing of . . . Mar *63
Air Resistance Through Fan Louvers or Shutters — How To Figure . . . Sept *88
Aluminum Jackets Linden-Bayway Lines in Steam-Oil Swap . . . Aug 83
American Power Conference Program — 19th . . . Mar *90
American Power Conference Sees Great Power Field Future . . . May *70
Ammonia Compressors Can Make Dry Ice — How . . . Feb *89
Analyzer — Cut Costs With an O2 . . . June *98
APC in March Will Spotlight Power Engineering Progress . . . Feb *83
Applications — Versatile Cable Trough Has Many . . . Nov *76
APPR Begins Operation at Fort Belvoir . . . June *78
Approach — The Centralized . . . July *51
Arcade Modernizes District Heating . . . Jan *82
Are Your Cooling Towers Noisy? . . . Dec *78
ASME-ASLE Proves Engineering Meetings Need Not Be Dull . . . Jan *69
ASME Forms New Maintenance Group . . . June *95
ASME Meeting and Power Show — — New York, November 1956 Power Show — Annual . . . Jan *77
Atomic Power Reactor in Operation — EBWR — First U.S. . . . Mar *64
Atomic Tool Measures Tube Thickness . . . Feb *98
Atomics (Special 12-page Section) . . . Dec *105
Attachment for a Square . . . May H *100
Attachment for Comparing Springs . . . Dec H *100
Attachments — Two Taper Turning . . . Mar H *94
Attendance Do Industrial Boiler Plants Need? — How Much . . . Mar *84
Audigage Tests Metal Thickness Without Drilling . . . Dec *96
Automatic — Laramie Ice Plant Goes . . . Mar *86
Automatic Or Manual? — Should Spare B-F Pump Start Be . . . July *74
Automatic Warning of Ice on Power Lines . . . Dec *86
Automation Raises Power Supply Problems . . . July *73
Auxiliary Equipment At Power Plant Start-Up — Running-In . . . Oct *95

B

Ball and Roller Bearings — How to Service — Part I — Effects of Design . . . Apr *80
Ball and Roller Bearings — How to Service — Part II — Maintenance . . . May *90
Barrel-Type B-F Pumps — 5 Kinds of Stuffing Boxes for . . . Sept *73
Basic Facts About Transformers . . . Aug H *102
Battery Cell Tester — Extend Use of . . . Jan H *88
Bearings — New Method of Fitting . . . Feb *110
Believe It Or Not — Steel Pen Works As Oil Atomizer . . . Dec H *98
Bench-Work Ideas — Good . . . Dec H *102
Bending Fixture Handles Tough Jobs — Simple . . . Aug H *106
Bending of Malleable Pipe — Wrinkle . . . Sept. *94
Bergen Station — What's New In Design For Big . . . Oct 145
B-F Pumps? — How Do You Operate Your . . . Mar *66
B-F Pump Capacity Do You Need? — How Much Spare . . . May *76
B-F Pumps? — What About Spare . . . June *76
B-F Pump Start Be Automatic Or Manual? — Should Spare . . . July *74
Big Job-Engineered Heat Pumps Make the Big Savings . . . Aug *92
Blade Life With Metal Spray — Extend Turbine . . . Aug *68
Boiler Descaling at Norda With Sulfamic Acid — One-Man . . . Oct *90
Boiler Feedwater System — How To Check — in Plant Start-Up . . . Apr *88
Boiler Fin Tubes — New Jig Simplifies Welding of . . . Nov H *90
Boiler Gives Blandin Paper Operating Flexibility — New . . . Nov *78
Boiler Insulation Costs — Standardization, Simplification Cut These . . . Mar *77
Boiler Plant Too Small? . . . Nov *86
Boiler Plants Need? — How Much Attendance Do Industrial . . . Mar *84
Bolting — Ideal for Power Plant Structures — High-Strength . . . May *66
Breakers — How To Get Top Performance From Paving . . . Aug H *108
Broom — Old Steam Plant — New . . . Sept *55
Build Your New Boiler Plant Right! . . . Apr *90
Burn Coal? — Is It Right to . . . June *74
Burn Pulverized Coal? Here's How To Prevent Fires in The System . . . Nov H 92
Burning Marginal Fuels — United Saves by . . . Nov *81

C

Cable Trough Has Many Applications — Versatile . . . Nov *76
Calibrate Meters Easier — It's Smarter . . . Apr *102
Canada — First Seamless Tube Plant in . . . Sept *69
Capacity Do You Need? — How Much Spare B-F Pump . . . May *76
Carry-All Toggle Tongs — Make These . . . Mar H *96
Casualty — How To Investigate a . . . Feb *68
Caterpillar's Electric System — How Standby Diesel Sets Fit into . . . Jan *80
Center in Manhattan — Engineers To Build Own . . . Feb *71
Centralized Approach — The . . . July *51
Characteristics of High-Temperature Nuclear Power Systems . . . Dec *111
Chart — Check This Fire Extinguisher Selection . . . Aug H *110
Chart, December Issue — Note About Maxwell's . . . Feb *73
Chart for Determining Fan Horsepower — Handy . . . Aug H *106
Chart—Mean Thermal Conductivity Conversion . . . Oct *104
Chart — Simple, Accurate — Pipe Sizing . . . Feb *93
Charts Help Solve Heating and Ventilating Problems — These Two . . . June H *104
Check-up — Union Electric's 10,000,000 Mile . . . May *65
Check for Pipe Weakness . . . Oct *100
Check This Fire Extinguisher Selection Chart . . . Aug H *110
Check Your Circulating Water System Before Plant Start-Up . . . May *68
Chest for Large Tools . . . Aug H *112
Chuck—Driving Centered Work in . . . Mar H *96
Chuck — Make-It-Yourself Magnetic . . . Feb *106
Chucked Work End Stop . . . Dec H *102
China Develops Big Hydro Systems . . . June *91
Circuit Breakers and Switchgear — There's a New Look for . . . Dec *94
Circulating Water System Before Plant Start-Up — Check . . . May *68
Coal-Bin Design — More Test Runs for Basic . . . Apr *94
Coal Board Takes Steps To Make It Work — Underground Gasification English . . . July *76
Coal Conveyors — Compressed Air Cuts Lubrication Costs On . . . July *55
Coal Crusher Mounting Solves Vibration Problem . . . Sept. *63
Coal Flows to Eastlake Power Plant In Trial of New Pipeline . . . Sept *58
Coal? Here's How To Prevent Fires in the System — Burn Pulverized . . . Nov H 92
Coal? — How Do You Inventory Your . . . Nov *72
Coal in Your Stockpile? — How Do You Know? — How Much . . . Jan *66
Coal? — Is It Right to Burn . . . June *74
Coal Sampling . . . Is It Reliable? — Mechanical . . . Aug *94
Coal Systems — Standards for Direct-Fired Pulverized . . . July H *90
Coal Tower Wire Rope — New Reeving System Triples Life of . . . Mar *80
Color Helps Identify Valves in Emergencies . . . Jan H *90
Combustion Efficiency Measures O2 Content in Flue Gases — Monitor for Peak . . . Feb *74
Commutators — Symmetry — The Answer to Selective Action in . . . May H *96
Compressed Air Cuts Lubrication Costs On Coal Conveyors . . . July *55
Compressors Can Make Dry Ice — How Ammonia . . . Feb *89
Compressors? — Think You Need More Air . . . Aug *82
Concrete Repairs? . . . This Epoxy Will Fix It — Worried About . . . Jan *85
Condensate Corrosion Patterns — This Tester Shows . . . Feb *67
Condensate System Before Plant Start-Up — How to Check . . . Feb *84
Condenser Air Leakage — New Way To Measure . . . July H *88
Condensers At Top Efficiency — Keep Your Evaporative . . . Apr 75
Conference Program — 19th American Power . . . Mar *90
Consolidated Edison Estimates Nuclear Power Cost . . . Feb 104
Control — Here's Practical Method of Power Plant Performance . . . Jan *79
Control — New — Takes Guess-Work Out of Tube Expanding . . . Apr H *106
Control Panels — Why Not Try Do-It-Yourself . . . Oct *68
Controls for a Self-Powered Pressure Regulator — Remote . . . May *80
Controls Are Different — H-T H-W . . . Sept *77
Conveyor Belts — New Tools Speed Splicing of . . . Jan H *90
Conveyors — Compressed Air Cuts Lubrication Costs On Coal . . . July *55
Cooling Tower Maintenance Cost? — What Does . . . Feb *79
Cooling Towers Noisy? — Are Your . . . Dec *78
Cooling Towers Today Serve Steam Generating Stations — King-Size . . . Sept *70
Cooling Water Right — Treat Your . . . July *56
Coördination Meetings of Subs Build a Power House Pentagon . . . Oct *92
Copper, Brass, Aluminum — Tips on Soldering and Welding . . . May H *98
Copper Water Tube — Tips on Use of . . . Aug H *108
Correct Practice for Oil and Grease Seals . . . Dec *70
Corrosion Patterns — This Tester Shows Condensate . . . Feb *67
Cost — Consolidated Edison Estimates Nuclear Power . . . Feb 104
Cost of Wood Tanks — Estimating . . . July H *82
Cost Too Much? — Does Your Cleaning . . . Feb *91
Cost? — What Does Cooling Tower Maintenance . . . Feb *79
Costs By Displaying Value of Parts — Here's Way To Cut Maintenance . . . Nov H *92
Costs For Group of Buildings — Heating-Cooling System Saves . . . Nov *67
Costs — New Crane Lowers Boom on Maintenance . . . Oct *81
Costs On Coal Conveyors — Compressed Air Cuts Lubrication . . . July *55
Costs — Planning, Ingenuity Cut St. Joe Power . . . Oct *75
Costs — Standardization, Simplification Cut These Boiler Insulation . . . Mar *77
Costs To Modernize — What It . . . Aug *84
Costs to Modernize Small Power Plants — What It . . . Oct *96
Coupling Features Rubber Tire —

New Flexible Cushion ... July *81
Crane Lowers Boom on Maintenance Costs — New ... Oct *81
Cromby — Soot Blowers Give — Broad-Range Steam Temperature Control ... Apr *100
Crusher Mounting Solves Vibration Problem — Coal ... Sept. *63
Cured Growing Pains — How Small Utility ... Sept *60
Cut Costs With an O2 Analyzer ... June *98
Cutting Guy Wires Safely ... Nov H *90

D

D-C Braking For Induction Motors ... Dec *90
D-C Metering Problems — Transductors Solve Tough ... July *52
Deburring Tool — Fast, Effective ... Apr H *110
Demand for Energy — The World's Rising ... Jan *49
Demineralizer — Webster Plant Uses Manual Operation on 2-Step Mixed-Bed ... Mar *69
De-Salts Earth — Electric Current Flow ... Feb 102
Descaling at Norda With Sulfamic Acid — One-Man Boiler ... Oct *90
Design and Operation — Electric System ... May *94
Design For Big Bergen Station — What's New In ... Oct 145
Design? — What Makes a Good Job of ... Nov H *94
Desuperheater In Turbine Bypass — Front Street Uses New ... Nov *84
Determining Fan Horsepower — Handy Chart for ... Aug H *106
Development Forges Ahead the World Over — Nuclear Power ... Jan *54
Diamond Jubilee — NAPE Stresses Education At ... Aug *98
Die Holder — A Simple Lathe ... Aug H *104
Diesel Engine Maintenance — Tips on ... Mar H *92
Diesel Life With Proper Warm-Up Procedure — Cut Maintenance, Increase ... Feb *100
Diesel Sets Fit into Caterpillar's Electric System — How Standby ... Jan *80
Direct-Fired Pulverized Coal Systems — Standards for ... July H *90
District Heating — Arcade Modernizes ... Jan *82
Does Your Cleaning Cost Too Much? ... Feb *91
Do-It-Yourself Control Panels — Why Not Try ... Oct *68
Do-It-Yourself Water Rheostat Test ... Aug H *110
Dounreay — Britain's Fast Reactor Project ... Nov *58
Drill Press Tips — Three Handy ... July H *84
Drilling — Audigage Tests Metal Thickness Without ... Dec H *96
Driving a Shaft — Economics of ... Aug *73
Driving Centered Work in Chuck ... Mar H *96
Dry Ice — How Ammonia Compressors Can Make ... Feb *89
Dynamometers — How To Protect Your Structures With ... Sept *57

E

Eastlake Power Plant In Trial of New Pipeline — Coal Flows to ... Sept *58
Easy-To-Make Device Measures Turbine Stretch ... Dec H *100
Easy Way To Increase Sump Pump Capacity ... Oct *104
EBWR — First U. S. Atomic Power Reactor in Operation ... Mar *65
EBWR Steam Is Different ... June *86
Economics of Driving a Shaft ... Aug *73
Economy Through Proper Pump Maintenance — How To Get ... Nov H 90
Economy — Use a Steam Jet Syphon for Versatility ... Nov *75
Editor Kramer on the Neutron Circuit ... June *95
Educated Power Plant? — Need An — This One Thinks For Itself ... Apr *87
Education At Diamond Jubilee — NAPE Stresses ... Aug *98
Effective Scheduling Eases Power Plant Start-Up ... Jan *70
Efficiency — Keep Your Evaporative Condensers At Top ... Apr *75
Efficiency Mean In Nuclear Power? — What Does Thermal ... July *63
Electric Arc Furnace Loads Affect the Utility — How ... Jan *74
Electric Current Flow De-Salts Earth ... Feb 102
Electric Equipment Properly Grounded? — Portable ... Dec H 98
Electric Generator Repair — Makeshift Rig Performs Quick, Low-Cost ... Apr *95
Electric Motors Gradually Supplanting Steam in Petroleum Refineries ... Nov 80
Electric System Design and Operation ... May *94
Electric System — How Standby Diesel Sets Fit into Caterpillar's ... Jan *80
Electric Watch Will Always Give You Current Time — Know Watthour It Is? ... Mar *88
Electrical Distribution Systems? — Here's A Handy Guide — Working on ... Oct. *106
Electrical Progress — New Horizons Spur ... Jan *62
Elevator Ropes — More Points on Lubricating ... Nov H 88
Elevator Ropes — What You Should Know About Lubricating ... Oct *98
Emergencies — Color Helps Identify Valves in ... Jan H *90
Energy From The Sun ... Feb *94
Energy — The World's Rising Demand for ... Jan *49
Engineer Defines His Job — A Power ... Nov *57
Engineering Meetings 'Need Not Be Dull — ASME-ASLE Proves ... Jan *69
Engineers To Build Own Center in Manhattan ... Feb 71
English Coal Board Takes Steps To Make It Work — Underground Gasification — ... July *76
Equipment — Good Way to Report Faulty ... Oct *88
Estimating Cost of Wood Tanks ... July H *82
ETR-AEC's Newest Test Reactor ... Dec *106
Evaporative Condensers — At Top Efficiency — Keep Your ... Apr 75
Ever Try Flame Rotation on Adjacent Oil Burners? ... Jan H *90
Exchangers — Your Guide to the Repair and Retubing of — Tubular Heat ... June *67
Exhaust Heat From a Gas Turbine — Here's How To Use ... June *84
Exhaust Hood — How To Size An ... May *89
Expanding — Here's a Good Idea for Tube ... June H *108
Expansion Loops Made With Ball Joint Fittings — New Space-Saving ... Dec *73
Extend Turbine Blade Life With Metal Spray ... Aug *68
Extend Use of Battery Cell Tester ... Jan H *88
Extinguisher Selection Chart — Check This Fire ... Aug H *110
Extinguishers! Warning — Inspect Those Fire ... Sept *94

F

Factors Influencing Starting Duty of Large Induction Motors ... Apr *96
'ail? — Why Does That Particular Fitting ... Oct. *70
Failures Can Be Stopped — Handhole Gasket ... Oct *73
Fan Horsepower — Handy Chart for Determining ... Aug H *106
Fan Louvers or Shutters — How To Figure Air Resistance Through ... Sept *88
Fast Reactor Project — Dounreay — Britain's ... Nov *58
Faulty Equipment — Good Way To Report ... Oct. *88
FCI Meeting Discusses Standards ... July *68
Feeder in Sight — Not a ... Aug *97
Feedwater — How to Measure Small Amounts of Silica in ... Apr *104
Field Temperature — New Way to Measure Generator ... June *90
Finding Answers to Refrigeration Problems ... July *80
Fire Extinguisher Selection Chart — Check This ... Aug H *110
Fire Extinguishers! Warning — Inspect Those ... Sept *94
Fire — Fixed-Pipe Extinguisher Kills Transformer Top ... Mar *88
Fire Protection Before You Buy — Test Transformer ... Aug *76
Fire, Rescue Vehicles Tailored to Fit at A-C — Midget ... Sept *84
Fireproof Your Fuel Tanks — How To ... Aug *91
Fires? — Is There a Best Way to Extinguish Transformer ... July *68
First Seamless Tube Plant in Canada ... Sept *69
Fitting Bearings — New Method of ... Feb *110
Fitting Fail? — Why Does That Particular ... Oct *70
5 Kinds of Stuffing Boxes for Barrel-Type B-F Pumps ... Sept *73
Fixed-Pipe Extinguisher Kills Transformer Top Fire ... Mar *88
Fixture Handles Tough Jobs — Simple Bending ... Aug H *106
Fixture — Simple Work Locating ... Jan H *86
Flag Pole — Dual-Purpose — Conceals Vent ... Apr *87
Flame Rotation on Adjacent Oil Burners? — Ever Try ... Jan H *90
Flashback! — Guard Against That ... Aug H *112
Flue Gases — Monitor for Peak Combustion Efficiency Measures O_2 Content in ... Feb *74
Fort Belvoir — The APPR Begins Operation at ... June *78
Foundations — Good Turbine — Prevent Maintenance Headaches ... Apr *78
Free-Piston Engine — New Two-Stage ... Dec *77
Front Street Uses New Desuperheater In Turbine Bypass ... Nov *84
Fuel Cell, New Power Source — Enter the ... Nov *63
Fuel Tanks — How To Fireproof Your ... Aug *91
Fuels — United Saves by Burning Marginal ... Nov *81
Furnace Loads Affect the Utility — How Electric Arc ... Jan *74
Fusion Power? — A Progress Report — How Soon Will We Get ... Feb *75
Future — American Power Conference Sees Great Power Field ... May *70

G

Gas Pressure Regulators — What You Should Know About ... Aug *70
Gas Pressure Regulators — What You Should Know About Maintaining ... Sept *66
Gas-Steam-Turbine Plant Will Use First Unified Design ... Apr *103
Gas Turbine — Here's How To Use Exhaust Heat From a ... June *84
Gas Turbine Nuclear Plants For High Temperature Power Cycles — Helium ... Aug *78
Gas Turbines March On ... Oct *79
Gas Turbines Rugged — Locomotive Maintenance Records Prove ... Dec *82
Gasification — English Coal Board Takes Steps To Make It Work — Underground ... July *76
Gasket Failures Can Be Stopped — Handhole ... Oct *73
G-E Produces Own Version of TV's "Line-Up" ... Feb *93
G-E Reports on Pittsburg Rotor Burst ... Dec *91
Generator Field Temperature — New Way to Measure ... June *90
Generator — Research Produces a New Package Steam ... July *69
Germanium Rectifiers — Correction — What You Should Know About ... Feb *73
Germanium Rectifiers Hit the Big-Time ... June *96
Get Rid of Oil Spills This Easy Way ... Apr *94
Good Bench-Work Ideas ... Dec H *102
Good Process — Hot-Lime-Zeolite Still a ... Feb 90
Good Way to Report Faulty Equipment ... Oct *88
Gravity Roof Venting — How To Figure ... July H *86
Grease Seals — Correct Practice for Oil and ... Dec *70
Grinding Set-Up — Efficient Square ... Sept *90
Grinding Wheels — System Developed for Marking ... June H *106
Guard Against That Flashback! ... Aug H *112

H

Handhole Gasket Failures Can Be Stopped ... Oct *73
Handy Guide — Working on Electrical Distribution Systems? — Here's A ... Oct *106
Heads Valuable? Utility Thinks So! — Are ... Aug *100
Heat Exchangers — Your Guide to the Repair and Retubing of Tubular ... June *67
Heat From a Gas Turbine — Here's How To Use Exhaust ... June *84
Heat Pump Made from Packaged Units ... Sept *85
Heat Pumps Make the Big Savings — Big Job, Engineered ... Aug *92
Heat Transmission Coefficients — How the Wind Velocity Affects ... Apr H *106
Heating and Ventilating Problems — These Two Charts Help Solve ... June H *104
Heating-Cooling System Saves Costs For Group of Buildings ... Nov *67
Helium Gas Turbine Nuclear Plants For High Temperature Power Cycles ... Aug *78
Here's a Quick Review of Turbine Sealing Methods ... July *78
Here's How To Use Exhaust Heat From a Gas Turbine ... June *84
Here's Practical Method of Power Plant Performance Control ... Jan *79
Here's Way To Cut Maintenance Costs By Displaying Value of Parts ... Nov H *92
High-Strength Bolting . . . Ideal for Power Plant Structures ... May *66
High Temperature Power Cycles — Helium Gas Turbine Nuclear Plants For ... Aug *78
High-Temperature Nuclear Power Systems — Characteristics of ... Dec *111
Higher Speeds and Temperatures — New Material for ... July *69
Holders — Make Your Own Label ... June H *108
Hood — How To Size An Exhaust ... May *89
Horsepower — Handy Chart for Determining Fan ... Aug H *106
Hot-Lime-Zeolite Still a Good Process ... Feb 90
How Do You Get Correct NPSH on a Pump? ... Nov *83
How Do You Inventory Your Coal? ... Nov *72
How Much Coal in Your Stockpile? — How Do You Know? ... Jan *66
How Soon Will We Get Fusion Power? — A Progress Report ... Feb *75
How Standby Diesel Sets Fit into Caterpillar's Electric System ... Jan *80
How To Check Boiler Feedwater System in Plant Start-Up ... Apr *88
How To Check Condensate System Before Plant Start-Up ... Feb *84
How To Do It Better — A Shopwork Memo ... May H *100
How To Dry Out a Transformer ... Sept *90
How To Figure Air Resistance Through Fan Louvers or Shutters ... Sept *88
How To Figure Gravity Roof Venting ... July H *86
How To Fireproof Your Fuel Tanks ... Aug *91
How To Get Economy Through Proper Pump Maintenance ... Nov H 90

How To Get Top Performance From Paving Breakers — Aug H *108
How To Inspect Power Transformers — June H *110
How To Service Ball and Roller Bearings . . . Part 1 — Effects of Design — Apr *80
How To Service Ball and Roller Bearings . . Part II — Maintenance — May *90
How To Size An Exhaust Hood — May *89
How To Take Power Plant Photographs — July *70
How To Turn a Radius on the Lathe — Jan H *86
How's PVC Doing In Power Field? — Oct *82
H-T H-W Controls Are Different — Sept *77
H-T Water Heats Reaction Motors — Mar *61
Hydro Plant — Maintenance Problems In a — July *66
Hydro Systems — China Develops Big — June *91
Hydro Turbines Rebuilt to Increase Output by 20 Per Cent — Apr 77

I

IC Progress, Awaiting Nuclear Power — Power Engineers Continue Steam, Hydro — Jan *58
Ice on Power Lines — Automatic Warning of — Dec *86
Ice Plant Goes Automatic — Laramie — Mar *86
Increase Sump Pump Capacity — Easy Way To — Oct *104
Induction Motors — D-C Braking For — Dec *90
Induction Motors — Factors Influencing Starting Duty of Large — Apr *96
Industrial Boiler Plants Need? — How Much Attendance Do — Mar *84
Industrial Power Plant — How To Set Up Operating Records For Your New — Oct *86
Industrial Power Plant — Train Your Operators Right For Your New — Sept *82
Industry Well — Mechanical-Drive Steam Turbines Serve — Nov *64
Inert Gas Welding Equipment Cuts Non-Ferrous Metals — Apr H *108
Ingenuity Turns Pocket Wire Gage Into Handy Tool For Checking — Aug H *108
In-Service Washing of Air Preheaters — Mar *63
Inspect Those Fire Extinguishers! Warning — Sept *94
Insulation Costs — Standardization, Simplification Cut These Boiler — Mar *77
International — Power Engineering Perspectives — National and — Jan *50
Inventory Your Coal? — How Do You — Nov *72
Investigate a Casualty — How To — Feb *68
Is It Reliable? — Mechanical Coal Sampling — Aug *94
Is It Right to Burn Coal? — June *74
Is There a Best Way to Extinguish Transformer Fires? — July *68

J

Jig Simplifies Welding of Boiler Fin Tubes — New — Nov *90
Job — A Power Engineer Defines His — Nov *57

K

Kilowatts for Taconite — Sept *81
King-Size Cooling Towers Today Serve Steam Generating Stations — Sept *70
Know Watthour It Is? — New Electric Watch Will Always Give You Current Time — Mar *88

Begins on Next Page

SUBJECT INDEX, January to December 1957 — inclusive

Selected typical articles covering readers' day-to-day job problems

Atomics

Nuclear Power Development Forges Ahead the World Over — Jan *54
How Soon Will We Get Fusion Power? — A Progress Report — Feb *75
Energy From The Sun — Feb *94
Atomic Tool Measures Tube Thickness — Feb *98
Consolidated Edison Estimates Nuclear Power Cost — Feb 104
EBWR — First U. S. Atomic Power Reactor in Operation — Mar *65
Northern States Power Co Plans 60,000 kw Nuclear Plant — Apr *86
APPR Begins Operation at Fort Belvoir—The — June *78
EBWR Steam Is Different — June *86
Editor Kramer on the Neutron Circuit — June *95
What Does Thermal Efficiency Mean In Nuclear Power? — July *63
Helium Gas Turbine Nuclear Plants For High Temperature Power Cycles — Aug *78
Dounreay — Britain's Fast Reactor Project — Nov *58
Atomics — Dec *105
ETR-AEC's Newest Test Reactor — Dec *106
Characteristics of High-Temperature Nuclear Power Systems — Dec *111
Piping Systems and Metallurgy For Nuclear Applications — Dec *114

Boilers and Boiler Room Problems

Power Engineers Continue Steam, Hydro, IC Progress, Awaiting Nuclear Power — Jan *58
Arcade Modernizes District Heating — Jan *82
Ever Try Flame Rotation on Adjacent Oil Burners? — Jan H *90
Color Helps Identify Valves in Emergencies — Jan H *90
Monitor for Peak Combustion Efficiency Measures O_2 Content in Flue Gases — Feb *74
How To Check Condensate System Before Plant Start-Up — Feb *84
Hot-Lime-Zeolite Still a Good Process — Feb 90
H-T Water Heats Reaction Motors — Mar *61
How Do You Operate Your BF Pumps? — Mar *66
Mando Installs New Steam Generator and Topping Turbine — Mar *73
Standardization, Simplification Cut These Boiler Insulation Costs — Mar *77
How Much Attendance Do Industrial Boiler Plants Need? — Mar *84
How To Check Boiler Feedwater System in Plant Start-Up — Apr *88
Build Your New Boiler Plant Right! — Apr *90
Soot Blowers Give Cromby Broad-Range Steam Temperature Control — Apr *100
How to Measure Small Amounts of Silica in Feedwater — Apr *104
New Control Takes Guess-Work Out of Tube Expanding — Apr H *106
How Much Spare B-F Pump Capacity Do You Need? — May *76
What It Costs to Modernize Small Industrial Power Plants — May *82
What About Spare B-F Pumps? — June *76
What it Costs to Modernize Small Industrial Power Plants — June *92
Modernizing Small Industrial Power Plants — July *49
Research Produces a New Package Steam Generator — July *69
Should Spare B-F Pump Start Be Automatic Or Manual? — July *74
At Start-Up, Test Steam Line This Way — Aug *67
Norton Increases Steam Capacity by 75 Per Cent — Sept 57
5 Kinds of Stuffing Boxes for Barrel-Type B-F Pumps — Sept *73
Handhole Gasket Failures Can Be Stopped — Oct *73
One-Man Boiler Descaling at Norda With Sulfamic Acid — Oct *90
Running-In Auxiliary Equipment At Power Plant Start-Up — Oct *95
Use a Steam Jet Syphon for Versatility, Economy — Nov *75
New Boiler Gives Blandin Paper Operating Flexibility — Nov *78
New Jig Simplifies Welding of Boiler Fin Tubes — Nov H *90
What Makes a Good Job of Design? — Nov H *94

Cooling Towers

What Does Cooling Tower Maintenance Cost? — Feb *79
King-Size Cooling Towers Today Serve Steam Generating Stations — Sept *70
Are Your Cooling Towers Noisy? — Dec *78

Corrosion Problems

This Tester Shows Condensate Corrosion Patterns — Feb *67
New Method of Fitting Bearings — Feb *110
Why Does That Particular Fitting Fail? — Oct *70
Handhole Gasket Failures Can Be Stopped — Oct *73

Electric Generators

Power Engineers Continue Steam, Hydro, IC Progress, Awaiting Nuclear Power — Jan *58
More D-C Power in Smaller Packages — Feb *72
Makeshift Rig Performs Quick, Low-Cost Electric Generator Repair — Apr *95
New Way to Measure Generator Field Temperature — June *90

Electric Motors and Switchgear

How Standby Diesel Sets Fit into Caterpillar's Electric System — Jan *80
More D-C Power in Smaller Packages — Feb *72
Factors Influencing Starting Duty of Large Induction Motors — Apr *96
Air-Cooled Aluminum Bus for Haas Underground Plant — Apr *103
Symmetry — The Answer to Selective Action in Commutators — May H *96
Economics of Driving a Shaft — Aug *73
You Can Cure Slip-Ring Troubles — Oct *67
Electric Motors Gradually Supplanting Steam in Petroleum Refineries — Nov 80
D-C Braking For Induction Motors — Dec *90
There's a New Look for Circuit Breakers and Switchgear — Dec *94

Electrical Transmission and Distribution

Power Engineering Perspectives — National and International — Jan *50
New Horizons Spur Electrical Progress — Jan *62
What does Static Switching Mean? — Jan *65
How Electric Arc Furnace Loads Affect the Utility — Jan *74
Extend Use of Battery Cell Tester — Jan H *88
What You Should Know About Germanium Rectifiers — Correction — Feb *73
Memphis Plans Big Power Program — Feb *82
Electric Current Flow De-Salts Earth — Feb 102
Extra Powerful X-Ray Machine Speeds Metals Research — Feb *104
Single Phasing . . . What It Is — What To Do About It — Mar *74
Fixed-Pipe Extinguisher Kills Transformer Top Fire — Mar *88
TV Monitor Saves $10,000 a Year — Apr *99
Gas-Steam-Turbine Plant Will Use First Unified Design — Apr *103
Understand A-C Welding Equipment? — May *85
Electric System Design and Operation — May *94
Germanium Rectifiers Hit the Big-Time — June *58
How To Inspect Power Transformers — June H *110
Transductors Solve Tough D-C Metering Problems — July *52
Automation Raises Power Supply Problems — July *73
Economics of Driving a Shaft — Aug *73
Not a Feeder in Sight — Aug *97
Rod-Driving Technique Speeds Work on the Power Line — Aug *100
Basic Facts About Transformers — Aug H *102
Do-It-Yourself Water Rheostat Test — Aug H *110
Sticker Helps Tally Load Tap Changes — Sept *90
How To Dry Out a Transformer — Sept *90
Working on Electrical Distribution Systems? Here's A Handy Guide — Oct *106
What's New In Design For Big Bergen Station — Oct *145
Enter the Fuel Cell, New Power Source — Nov *63
Versatile Cable Trough Has Many Applications — Nov *76
When Fire Strikes a Power Station — Dec *74
Automatic Warning of Ice on Power Lines — Dec *86

Fuel; Fuel and Ash Handling and Gas Handling

Power Engineers Continue Steam, Hydro, IC Progress, Awaiting Nuclear Power — Jan *58
How Much Coal in Your Stockpile? . . . How Do You Know? — Jan *66
How Electric Arc Furnace Loads Affect the Utility — Jan *74
Monitor for Peak Combustion Efficiency Measures O_2 Content in Flue Gases — Feb *74
Modern Ash Handling Pays Off At Milliken Station — Feb *86
Energy From The Sun — Feb *94
In-Service Washing of Air Preheaters — Mar *63
New Reeving System Triples Life of Coal Tower Wire Rope — Mar *80
More Test Runs for Basic Coal Bin Design — Apr 94
